

The background of the slide is a photograph of two hikers on a mountain peak. One hiker, wearing an orange jacket and black pants, is standing on the peak and reaching down to help another hiker. The second hiker, wearing a red jacket and black pants, is climbing up the side of the rock. The sky is blue with white clouds, and snow-capped mountains are visible in the distance. A thin blue curved line starts from the left side of the image and arcs around the text.

AUTOMATION ENGINEER PRACTITIONER LEARNING PROGRAM

LEVEL 2 : Deployment experience in form of an Automation Use case

- **Use Case** - This is related to showcase what participants have already implemented a use case (in last 6 months) with any set of technologies / scripts / enablers that resulted in tangible benefits to the functionality will make them eligible for Practitioner Engineer Certifications.
- The implementation can be local / in a test environment/ in a form of PoC.
- It isn't mandatory to get the implementation done in a client environment.

Participant needs to follow the following steps :

1. Participants needs to submit the survey form. [Teams link](#)
2. Post submission they need to respond to automationacademyglobal.in@capgemini.com keeping mentor in loop for final sign off.

Acknowledgement will be send within 1 week from date of submission of Usecase and post 2 weeks' time, the certificate will be sent out from university.
